Describe Two Different Manual And

Key Difference: The term 'manual' or 'guide' both usually refer to a document whose main aim is to provide information or instructions. It is generally expected that guides are shorter, concise and more to the point than manuals. A manual is expected to give more in-depth information and instruction than a guide.

Main Difference - Describe vs Explain. Describe and explain are two similar words that we often consider as synonyms. However, there is a distinctive difference between describe and explain, especially when we look at their results. When we describe something, we talk about the things we see, feel, and hear.

Difference Between Describe and Explain | Meaning, Content ...

Before the 18th century, the word "wilderness" had very different associations than it does today. Far from being tourist attractions, wilderness areas were considered bleak, barren places that inspired fear and confusion - landscapes to be avoided rather than actively sought out (Cronon, 1995, p. 70).
