Fear of Crime: Interpreting Victimization Risk. | Semantic ... Abstract. This study models simultaneously three commonly used indicators of fear of crime — feeling unsafe alone at home after dark, feeling unsafe walking alone after dark and worry about becoming a victim of crime — against direct (being a victim) and indirect (knowing a victim) victimization, controlling for demographic and socioeconomic characteristics of individuals via multivariate, i.e. multiple responses, multilevel analysis of data from Athens, Greece.

Fear of crime : interpreting victimization risk (Book ... Ferraro examines how people interpret their risk of criminal victimization and identifies who is most likely to be afraid of crime. Although many previous studies of fear of crime do not explicitly consider the concept of risk or perceived risk in estimating the prevalence of fear, the approach taken here considers perceived risk as central to the entire interpretive process.

(PDF) Fear of Crime - ResearchGate
Being a victim of crime can be a very difficult and stressful experience. Learning to understand and feel more at ease with the intense feelings can help victims cope.

Coping with Crime Victimization — FBI
Some studies have found that victimization experiences increase fear of crime (Ferguson & Mindel, 2007; Katz, Webb, & Armstrong, 2003); others have found that victimization experiences decrease fear of crime (Mesch, 2000a); and others have found that victimization has no effect on fear of crime (Ferraro, 1995). Further research has focused on the role of vicarious victimization.
Fear of Crime - Oxford Research Encyclopedia of Criminology
This book examines relationships between official crime risk, perceived risk, and fear of crime among various demographic categories, within different environmental contexts. It specifies and measures two outcomes when actors perceive high victimization risks: fear and constrained behavior.

Ferraro examines how people interpret their risk of criminal victimization and identifies who is most likely to be afraid of crime. Although many previous studies of fear of crime do not explicitly consider the concept of risk or perceived risk in estimating the prevalence of fear, the approach taken here considers perceived risk as central to the entire interpretive process.

Fear of Crime - SUNY Press
The fear of crime refers to the fear of being a victim of crime as opposed to the actual probability of being a victim of crime. The fear of crime, along with fear of the streets and the fear of youth, is said to have been in Western culture for "time immemorial". While fear of crime can be differentiated into public feelings, thoughts and behaviors about the personal risk of criminal victimization, distinctions can also be made between the tendency to see situations as fearful, the actual exper
