international organization | Definition, History, & Facts ...

An international organization (intergovernmental organization) is an organization established by a treaty or other instrument governed by international law and possessing its own international legal personality, such as the United Nations, the World Health Organization and NATO. International organizations are composed of primarily member states, but may also include other entities, such as ...

International organization - Wikipedia

International organizations have become fixed elements of the international legal landscape in that much law-making takes place by them or under their auspices and much monitoring of international law is done by them. 14 International organizations can interfere directly in the lives of individuals, whether through sanctions ordained by the United Nations (UN) 15 or in the migration processing ...

On Theorizing International Organizations Law: Editors ...

International law, also known as public international law and law of nations, is the set of rules, norms, and standards generally accepted in relations between nations. It establishes normative guidelines and a common conceptual framework to guide states across a broad range of domains, including war, diplomacy, trade, and human rights.

International law - Wikipedia

This article argues that international organizations “as such” can contribute directly to the creation of customary international law for three independent reasons. First, the states establishing an international organization may subjectively intend for that organization to be able to contribute to the creation of customary international law.
