Chan (Author), James Demmel (Author), June Donato (Author), Jack Dongarra (Author), Victor Eijkhout (Author), Roldan Pozo (Author), Charles Romine (Author), Henk van der Vorst (Author) & 7 more.

Templates for the Solution of Linear Systems: Building ...

In this book, which focuses on the use of iterative methods for solving large sparse systems of linear equations, templates are introduced to meet the needs of both the traditional user and the high-performance specialist. Templates, a description of a general algorithm rather than the executable object or source code more commonly found in a conventional software library, offer whatever degree of customization the user may desire.
